MAY 4 REC'D

We want to thank you for your participation in Earth Day '79. Your folks have a nice display. Hopefully, many passersby learned of your endeavors, and you had the opportunity to visit other displays as well.

- Enclosed is a series of questions.
- Your responses will be valuable in our evaluation as well as in the future. Will you please send your reply to us soon?

Thanks for calling about your sales (1 shirt @ \$4), I'm surprised more people didn't take advantage of the fine items you have available.

- Mahalo for helping make Earth Day '79 what it was.
-

Dennis Alger
for CEA

COUNCIL FOR ENVIRONMENTAL AFFAIRS

EARTH DAY '79 is finished, and we are grateful to everyone who worked so hard and especially to all of our participants.

We have not yet begun plans for EARTH DAY '80 yet, but would like to evaluate this year's event while it is still fresh in our minds. Please help us by answering the following questions and mailing this back to us.

1. Approximately how many people stopped to see your exhibit or attend your forum?
2. How many engaged in conversation or asked for more information?
3. Did you have sign-up lists for membership or mailings or petitions? How well were these used?
4. Did you receive any contributions or sell anything? Explain please.
5. Was your exhibit on the mall or in the campus center? Were you satisfied with this area?
6. Did you view other exhibits, or forums or special programs of the day?
Which ones and why?
7. Which environmental subjects do you feel were well represented? underrepresented?
8. What would you suggest for future events that we plan?
9. Can we add your name to our mailing list? Would you be interested in participating in EARTH DAY '80?

Re: Hokule'a

Dear Sirs:

Please excuse the long delay in responding to you regarding the training phase of the crew members of Hokule'a.

To update you on this specific point, I have enclosed copies of our training program. Kindly note that the training schedules are aimed at three levels - immediate and day sails, inter-island sails and a Tahiti trip.

Enclosed are the following documents:

1. Hokule'a Training Program - Leon Sterling.
2. Hokule'a Training Program - Hainoa Thompson.
3. Comprehensive Ocean Survival Course.
4. Ideas for a Safe Voyage on Hokule'a to Tahiti and Back.
5. Hokule'a's Communications Considerations.
6. Hokule'a March 1979 Schedule.

The documents will speak for themselves regarding the inter-island sails and Tahiti trip.

As far as the day sails are concerned, it is the policy as follows:

1. The Captain is charged with crew selection and training.
2. The Captain is charged with allocation of the following duties:
 - a. Before sailing, two mates are appointed and the personnel divided.
 - b. Within their respective sub-crews, certain individuals are appointed to check the vessel (hatches, sails, lines, etc.). In addition, one man is charged with communications while two others are charged with the man-overboard procedures. An EPRIB is carried on board with one individual specifically assigned to that safety piece of equipment.
 - c. There is a one-half hour briefing before departure, including use of pumps and other emergency procedures.
3. Lastly, crew selection is broken down into 60% experienced and 40% new.

At the present time Hokule'a is in the process of making 3-4 hour sails for the purpose of testing the sails and other rigging. In addition, crew members are retraining or learning additional skills involved in sailing Hokule'a.

This Sunday, Hokule'a's crew is scheduled to practice man-overboard drills.

Accordingly, we have no inter-island sails scheduled within the next two months. Present training consists of performing basic seamanship skills in sailing Hokule'a, including actual drill procedures in safety operations.

It is also anticipated that in April or May Hokule'a will be undertaking some evening sails to give practical experience to our celestial navigation project.

Should you have any further questions, please feel free to call me. Again, please excuse the long delay in getting back to you.

Sincerely,

POLYNESIAN VOYAGING SOCIETY

Attention: Bob Moore

RE: Request for Extension of CETA Positions and
Budget Allocations, Polynesian Voyaging Society

Dear Mr. Moore:

Please find enclosed information concerning our "Request for Extension" of the present CETA positions: the Administrative Secretary and the Educational Coordinator. Because of our immense organizational growth in the past year, our in-house evaluations required an upgrade in the work responsibilities of each position. Both positions' duties and responsibilities are described in detail, including additional responsibilities not mentioned in our earlier description.

Furthermore, it has become apparent that the position of the Administrative Secretary be upgraded to an Administrative Director or Executive Director in order to accommodate the added duties and responsibilities. What is not included in our "Request" is the fact that the added responsibility of assisting in the coordination of the 1980 Hawaii-Tahiti-Hawaii was not mentioned. In essence, besides Ms. Among's ability to gain experience as a possible employee, she would now have the opportunity to gain valuable "on the job" training in assisting in the coordination of a major educational project. From the standpoint of increasing her work experience from Administrative Secretary to Administrative Director, this additional work responsibility would greatly enhance her marketability from a job potential point of view. Second, she has available to herself a viable, educational training site which she herself has been able to set up and modify to suit the needs of PVS. Third, because of the required responsibilities, she would gain valuable experience in public relations, supervisory skills and decision-making. Fourth, her immediate supervisor would be Anthony Guerrero, a Senior Vice President of First Hawaiian Bank, who has had over ten years of experience in this area. Thus, she would be getting the best supervision.

In regard to the position of the Educational Coordinator, it has become apparent that due to the number and variety of educational projects that we have accomplished, are doing, and planning, that any individual, including the present trainee, has not gained enough experience to such a degree to say that she is experienced enough to be marketable. Ms. Bell's supervisor is and would be Cecilia Lindo, an Educational Director with the Department of Education.

With this in mind, and the fact that our project is the only on-going, educational-oriented, practical training site of its kind, the PVS would like your approval in granting its Request to Extend these positions. Second, should you feel that our program qualifies under the present Federal guidelines, and that your budget would allow an additional CETA position, we could use an additional staff worker (clerical) to be supervised and trained by the Administrative Director or Executor.

Should you have any questions, please call me at [REDACTED]. Since these positions terminate at the end of this month, I would appreciate a phone call response from you in order that I notify the Board.

Mahalo,

POLYNESIAN VOYAGING SOCIETY

RE: CETA POSITIONS
Administrative Secretary - Marlene B. Among
Education Coordinator - Willene Wailani Bell

Dear Winona:

It was brought to my attention at a committee head meeting that the above mentioned positions were inadvertently terminated as of Thursday, February 15, 1979. I must admit that I was shocked that these positions were terminated. It had been my understanding that these positions were to be funded until the end of March of this year whereupon there would have been a review of these positions.

In reviewing my notes with Marlene, as well as other members of the Polynesian Voyaging Society, I do recall contacting the Alu Like Field Office at least three times during the months of January and February regarding the status of the positions and the problem concerning workman's compensation. However, at no time was any mention ever made of terminating these positions on the 15th of February. Further, in speaking with Kaipe Kauka, Vice President, he informed me that he had contacted your Field Office at least four times during the month of February regarding the status of these positions. To the best of his knowledge these positions had not been terminated. Lastly, Marlene had contacted me several times before the February 15th termination date, as well as Wailani Bell, to inform me of the possible termination. I had asked Marlene to inquire into the termination notice, and was informed that their status as employees were at a standstill

ILLEGIBLE

Page Two
Winona Rubin
March 6, 1979

since the Field Office Supervisor was out of town, and would not be able to verify whether or not the positions had actually been terminated. I also recall that contacts had been made several days after the 15th to find out the status of the positions and no response to these positions was given.

Because these two positions are very vital to the continuing existence of our organization, I would request that we at least discuss this matter at a meeting to follow within the next two days. It is my further understanding that because of your heavy schedule, this matter can be discussed with Hinano Paleka and Jalna Keala. I would appreciate meeting with yourself and/or both of these individuals.

Marlene will be contacting you on Wednesday, March 7th, to arrange a meeting regarding this issue.

Sincerely Yours,

Michael A. Tongg

RE: CETA POSITIONS / FOT-1013
Administrative Secretary - Marlene Among
Education Coordinator - Willen Wailani Bell

Dear Winona - It was brought to my attention at a committee head meeting that the above mentioned positions were inadvertently terminated as of February 15, 1979.

I must admit that I was shocked ~~upon hearing word~~ that these positions were terminated. It had been my understanding that these positions were ~~terminated~~ ^{to be ended} until the March of this year, whereupon there would have been a review of these positions.

In reviewing my notes with Marlene, as well as other members of the Polynesian Voyaging Society, regarding the above positions, I do recall contacting the Alu Like Field Office at least three times for the months of January and February regarding the status of the positions, and the problem concerning workman's compensation. However, at no time was any mention ever made of terminating these positions on the 15th of February.

Further, in speaking with Kip Kauka, Vice President, he informed me that he had contacted your Field Office at least four times regarding the status of these positions, and was later informed ~~that~~ ^{that} ~~the~~ ^{the} ~~positions~~ ^{positions} ~~had~~ ^{had} ~~not~~ ^{not} ~~been~~ ^{been} ~~terminated~~ ^{terminated}.

I was informed by Kip Kauka, Vice President, that to the best of his knowledge these positions had not been terminated.

Lastly, Marlene had contacted me several times before the February 15th termination date, as well as Wailani Bell, to inform me of the possible termination. I had asked Marlene to inquire into the termination notice and was informed that their status as employees were at a stand still since the Field Office Supervisor was out of town, and would not be able to verify whether or not the positions had actually been terminated.

I also recall that contacts had been made several days after the 15th to find out the status. However, no response to these positions was given.

Because these two positions are very vital to our continuing existence of our organization, I would require that we would request that we at least sit down to discuss this matter at a meeting to follow within the next two days. It is my further understanding that because of your heavy schedule, that this matter should be discussed by Hinano Palkea and Jalna Keala, as I would appreciate meeting with yourself and/or both of these individuals.

If it is possible could you arrange with Marlene to meet with me late Wednesday after 3:30 P.M. or anytime Thursday afternoon, March 8th, 1979.
Sincerely ours,

SUBJ: CONTACT WITH ALU LIKE FIELD OFFICE REGARDING
EXTENSIONS OF CETA POSITIONS

Michael A. Tongg
President

Contacted the Field Office three times during the months of January and February with no response. Spoke to Maxine once regarding the status of workman's compensations and extension of positions - she saw no problem with The CETA positions.

Kaipo Kauka
Vice President

February 16 - Spoke to Maxine and was informed that the positions were pending.

February 19 - Spoke to Maxine and again informed that the positions were pending.

February 25 - Spoke to Maxine and was informed that her supervisor was out of town and would return on the 26th.

February 26 - Maxine called Kip and he was out of the office.

Anthony Guerrero
Treasurer

Never spoke to the Field Office.

Marlene Among
Secretary

February 14 - Spoken Maxine that contracts were up on the 15th and requested information on status. She indicated that her supervisor was out and would get back to me.

Maxine called back and could not locate our contracts and requested that I call her back on February 15.

Page Two
Paige Kawelo Barber

Marlene Among (continued)
Secretary

Wailani Bell
Education Coordinator

February 15 - Spoke to Maxine and she indicated that her supervisor was out of town and she would get back to me when she had the information.

February 15 - Left a message to have Maxine call PVS office.

February 16 - Spoke to Maxine requesting status of our positions. She could not say because her supervisor was not in.

February 17 - Spoke to Maxine and she indicated that our contracts could not be found and she would get back to the PVS office.

August 11, 1978

Dr. Charman J. Akina

Dear Charman:

The Board of Directors of the Polynesian Voyaging Society has decided to dissolve the status of crew personnel effective August 3, 1978. It is felt by the Board that the goals and objectives of the Polynesian Voyaging Society and Hokule'a be reevaluated.

In essence, a new Steering Committee for another Tahiti trip will be set up. A new crew selection process will begin. Whatever methods and procedures are used will be presented by the Steering Committee to the Board of Directors for approval before any actual selection is done. For all of those individuals who qualified for the second voyage, the experience, education, training, and knowledge which you have gained will be an advantage in having you again selected for the next Tahiti trip.

In order to further future crew candidates as well as provide continuing education for the sea persons under CETA program, Leon Sterling, Vessel Supervisor has implemented a water safety and instrument navigation program. Please call Marlene at the Polynesian Voyaging Society office (841-3966) if you wish to attend these classes. Classes commence on August 21, 1978.

Mahalo,

POLYNESIAN VOYAGING SOCIETY

August 11, 1978

Mr. Michael A. McGuire'

[REDACTED]
Honolulu, Hawaii 96825

Dear Buddy:

The Board of Directors of the Polynesian Voyaging Society has decided to dissolve the status of crew personnel effective August 3, 1978. It is felt by the Board that the goals and objectives of the Polynesian Voyaging Society and Hokule'a be reevaluated.

In essence, a new Steering Committee for another Tahiti trip will be set up. A new crew selection process will begin. Whatever methods and procedures are used will be presented by the Steering Committee to the Board of Directors for approval before any actual selection is done. For all of those individuals who qualified for the second voyage, the experience, education, training and knowledge which you have gained will be an advantage in having you again selected for the next trip to Tahiti.

In order to further future crew candidates as well as provide continuing education for the sea persons under the CETA program, Leon Sterling, Vessel Supervisor has implemented a water safety and instrument navigation program. Please call Marlene at the Society office (841-3966) if you wish to attend these classes which commence on August 21, 1978.

Mahalo,

Michael A. Tongg
President
POLYNESIAN VOYAGING SOCIETY

Dear Sir:

It was brought to our attention by Captain Wolk, Marine Safety Officer for the United States Coast Guard, that your corporation constructs air bags to be used as safety floatation devices.

We would like to request a sample or description of the air bags to be used in the hulls of Hokule'a (double hulled canoe) as an additional safety feature. Please include all the specifications and costs.

Attached for your information is an in-depth description on Hokule'a, which might assist you in selecting the proper air bag to be used on Hokule'a.

Thanking you in advance for your assistance, and we look forward to an early reply.

Sincerely,

Michael A. Tongg
President
POLYNESIAN VOYAGING SOCIETY

HOKULE'A

HOKULE'A is an experimental sail catamaran built in Honolulu, Hawaii in 1975 as a replica of the ancient double ended Polynesian voyaging canoes. It is 61.4 feet in length, 15.6 feet wide, has a depth of 3.1 feet and is 8.61 gross tons.

Vessel is molded plywood covered with fiberglass. The twin hulls are each subdivided into seven watertight compartments by six watertight bulkheads. Each compartment has a wooden hatch combing which is covered by a wooden hatch cover.

Each hull has a 22 inch high gunwale with two inch scupper holes on each side approximately 54 inches apart.

RE: News Release in Response to U.S. Coast Guard Report

Admiral Moreau stated that Hokule'a was manifestly unsafe for an extended open voyage from Tahiti to Hawaii. The reason for his opinion was because of the "unsuitable design and inadequate construction."

Since the date of the incident, the Polynesian Voyaging Society has been working with the U.S. Coast Guard to comply with and repair the recommendations of the U.S. Coast Guard. To date, there are only two or three recommendations which have not been complied with. The reason being that Hokule'a has not been fully repaired.

However, once Hokule'a has been fully repaired, she will have gone through all of the physical modifications required. None of these physical modifications will have substantially changed the structural design of Hokule'a, thus, leaving her of a polynesian design.

Once these changes are completed and provided that they meet with approval of the U.S. Coast Guard and the Polynesian Voyaging Society Board of Directors, Hokule'a will then be able to continue her inter-island sails.

The remaining question is whether Hokule'a will be able to sail to Tahiti. The U.S. Coast Guard's report indicated that they would definitely be against Hokule'a sailing to Tahiti at this time. However, since our last communication with them, should Hokule'a's changes be positive, and our sailing track record on the inter-island voyages be many, successful and without incident, there is a good possibility that the U.S. Coast Guard would allow Hokule'a to sail to Tahiti.

Rear Admiral J. W. Moreau
UNITED STATES COAST GUARD
14th Coast Guard District
Honolulu, Hawaii 96813

Dear Rear Admiral Moreau:

Please excuse me for not responding to you in writing since our telephone conversation acknowledging receipt of your letter dated May 5, 1978.

The purpose of this letter is to confirm in writing the position of the Polynesian Voyaging Society with regards to your recommendations as set forth in your letter.

First of all as stated to you earlier, Hokule'a will not be leaving Hawaii on any extended sea voyages during the year 1978. At the present time, there are no plans for Hokule'a departing for Tahiti or any other destination outside of Hawaii.

With regards to your recommendations in your May 5, 1978 letter, it is my understanding that items A B C E F and H have been complied with the Coast Guard. Items D and G are still being worked on with the help of experts in the field of marine and ship design. It has already been agreed by the Board that item I will be performed in accordance with Coast Guard standards prior to the vessel leaving on any voyages.

As far as your comments on safety and lifesaving equipment, communications, and training, the Polynesian Voyaging Society is in the process of adopting specific policies and procedures to assure the ultimate safety of crew members, vessel and equipment.

May 27, 1978

Dear Ms. Barber:

I read with much interest your preparation of foods and provisioning for the Hukule'a.

As a hobby, I am listed as a national ^{saliva} expert. Unhappily I know nothing about processing or preparing foods, but I do know a great deal about their medical uses etc. My purpose in writing to you is twofold: 1. If you have any written instructions regarding the preparation of food used by you, I would be grateful for copies thereof. 2. We shall be in Honolulu the last part of October, 1977 (I am conducting a group of physicians on a trip from Japan to Honolulu)- medical seminar). Would it be possible for you for me to meet with you at that time? I have a very dear friend in Honolulu, whom you possibly know, namely Dr. K. Chock of the Chock-Prang Clinic. I will leave word with him where we will be staying although I anticipate that the tour calls for two days at the Kahala Hilton.

It will be a real pleasure to meet with you and I am confident we can exchange information that would be mutually helpful. I congratulate you and your associates on a first rate voyage and I take personal pride in your accomplishment.

It would be a great pleasure to hear from you. With every good wish,

Sincerely,

Stephen R. Elek, M.D.

Kote Lotah

Dear Mr. Lotah:

Thank you for your letter of December 12 about your Tomol voyage and your interest in getting together people of Hawaii who might be interested in a cultural exchange visit.

I saw your canoe at the museum when I visited Santa Barbara last spring. It looked very seaworthy; you must have had a good trip.

Your best contact in Hawaii would probably be the Polynesian Voyaging Society, the group that sponsored the voyage of Hokule'a from Hawaii to Tahiti and return. As I am no longer directing the Society I have forwarded your letter to Paige Barber, Vice-President of the Society, who is now in charge.

Enclosed is a copy of a short article on the voyage and related experiments.

Sincerely yours,

Ben R. Finney
Professor

p.s. In 1964-66 I lived in Isla Vista while my wife and I were teaching at the University of California. From our apartment we had a beautiful view across the channel; many a time I wondered what it would have been like paddling a Tomol over to the islands.

Kote Lotah

Santa Barbara, Calif.
93107

Dear Mr. Finney:

My name is Kote Lotah. I am a traditional Chumash Indian and the traditional religious leader for the Southern Chumash people. Recently I heard of the boat trip made by a group of Native Hawaiians. In June, 1976, a group of Chumash made a similar boat trip in a traditional plank boat called a Tomol. I participated in the construction of the Tomol and was among its crew on the trip. It has been about one hundred and fifty years since any Chumash people have rowed through the Santa Barbara Channel in a traditional boat. At one time the Tomol served as a regular means of transportation, trade and communication between the Channel Islands and the mainland.

My reason for writing this letter is to see if it would be possible for you to help me in contacting the people in Hawaii who could help me arrange a cultural exchange visit.

I would really appreciate any help you can give me in arranging this exchange. It would be a very important thing for myself and my people.

Sincerely,

Kote Lotah

Dear Sir:

I am an artist + specializing in Old Hawaiian
in my engravings. I had written to Dillingham hoping
to get a copy of their 1973 Tide Calendar as it has
fantastically beautiful + authentic pictures of Hawaiian
canoes + outriggers. But they have that calendar in stock
no longer + suggested I write to you. I am hoping to get these
canoe + outrigger reproductions or similar copies of these
pictures from you. Please send me a letter telling
me how much you have + prices + I will send
a check or money order off + you immediately upon receipt
of your letter.

Anticipationly awaiting your reply.

Sincerely,

Dianne Winter

Aloha;

This is a letter of consideration requesting that your agency financially support the Polynesian Voyaging Society positions of Education Coordinator and Executive Administrative Secretary. The life of the Polynesian Voyaging Society rests heavily on the stability of the above positions.

These two positions are the centrifugal force of the organization and activities within the PVS. To interrupt their function at this point would be damaging to the accomplishment of the goals and objectives of the PVS.

To have the Society floundering out as a non-profit organization, dedicated to research, education and experiential Polynesian voyaging, would be a tremendous loss to those individuals interested in the cultural aspects of Polynesian voyaging. Although the PVS is a non-political entity, it can be the centering force in the Hawaiian community in re-establishing the cultural pride and interest in Hawaiian Studies.

Educational dimensions to consider

In addition to the ongoing projects carried on by Ed. Comm, the S.

HAWAII

TAHITI

BICENTENNIAL VOYAGE OF REDISCOVERY
HOE AKU I KA WA'A

Description of Ed. Corr roles w/ reference to book
coming out —

Role of canoe

(1) floating classroom

(2) learning exp —

appeals to groups w/ learning disabilities
& inds who find it difficult learning ~~confusions~~
under traditional classroom ~~education~~.

① Letter consideration to Board of Directors
 of Ala Liko requesting that they carry positions
 until funds are rec'd (1 1/2 mos.) From Nov. 16th
 till — Dec. 31st 0:00

② Grant application —
 cover letter

Honolulu, Hawaii 96819

Dear Paige:

Following your eventful move from President to a Board member, and the subsequent condolences and responses of our fellow peers, I felt it necessary to express my personal gratitude and appreciation in serving as President of Polynesian Voyaging Society.

You and your in-house staff have done an outstanding job, beyond recognition, in keeping the Polynesian Voyaging Society together. Please give my aloha to all of them.

I can't say that I will miss your island charm, feathery touch, friendly persuasion, because I am looking forward to working closer with you while assuming the role of President. If I can do this, I'm sure that I can accomplish one-half of the job as did you and Ben.

My fondest aloha and appreciation. And in case you are wondering, I would like to thank you now, in advance, for the anticipated cooperation, time and patience that you will give me in the future.

Sincerely,

MF
MICHAEL A. TONGG
