Dear Mr. Mawby:

In 1976, a number of my Hawaiian constituents built and sailed a replica of an ancient double-hulled sailing canoe across the Pacific from Hawaii to Tahiti. The canoe was named Hokule'a.

The voyage of the Hokule'a was subsequently premiered on national television in a 90-minute National Geographic special and was the subject of an article in the October, 1976 issue of the "National Geographic Magazine."

This voyage was especially meaningful in that the young Hawaiians participating attempted to replicate the earlier voyages of their Polynesian ancestors in as many aspects as possible. For example, their food consisted of only those supplies which historians have indicated might have been prevalent during the time of the original voyages. They sailed, not with modern instruments, but instead, by the stars, the moon, the sun, the winds, the ocean swells and currents.

As you can imagine, the 20,000 Tahitians who were present when the Hokule'a landed were ecstatic and, upon the canoe's return to Hawaii, our beaches were lined with the Sons and Daughters of Hawaii.

A non-profit organization, the Polynesian Voyaging Society, has now been formed for the express purpose of replicating this journey. Resources permitting, they would like to expand the scope of their endeavor by developing their next voyage into a truly cultural/anthropological experience. The Society's eventual goal is to use the Hokule'a as a catalyst around which

The Hawaiian community at large is quite familiar with the accomplishments and goals of the Polynesian Voyaging Society which are to recreate and research voyaging canoes and navigation systems that made the settlement of Polynesia possible, and also; to a means of educating the people of Hawaii. Also known are the recent problems of HOKULE'A.

Our current objectives include the refurbishing of HOKULE'A to the recommendation of the U. S. Coast Guard, so she may continue to sail, and bring to the people of Hawaii a better understanding of our heritage.

It has been mentioned in a past board meeting, the possibilities of a fund raising project, which I will elaborate on.

China House restaurant, located on Kapiolani Blvd., near the Ala Moana Shopping Center, will accomodate up to 500 people. Tables are fifty in number, seating ten people per table. An individual will be assigned to a table, he or she will have to sell tickets to fill the assigned table.

## Example:

Ticket Sellers	50 people	
Per Ticket	\$ 25.00	
Gross Sales	\$12,500.00	
China House	\$ 4,500.00	(\$9.00 from \$25.00)
Net Profit	\$ 8,000.00	

In addition, the Society could hold an auction. Various items could be made such as canoe paddles, replicas of koa cleats on a stand. There may be ideas generated into this project.

Page Two  
FUNDRAISING

Donations from members on items that could be auctioned out, such as, paintings, lauhala hats, feather leis, matting (from Tonga Trading), carvings (Sam Ka'ai ?) fish-hooks et cetera. . . .

I have found that holding an auction surprisingly has a tremendous effect on people.

Entertainment for the evening could be on a donation basis, one to two groups would be sufficient. I would like to recommend Mr. Chubby Mahoe as emcee, and auctioneer.

If it is in agreement, I recommend that committees should be established immediately, with a commitment on a date for this event.

Polynesian Voyaging Society  
Subject: Participation in Trans Pac 1979

Today I spoke to Pat Harmon of the Trans Pac committee on the follow up on her conversation with boarddirector, Chuck Larson.

I told Pat that our main concern was to see if we could have a booth on the Trans Pac grounds so that we could sell various PVS products, such as T-shirts, books, calendars, etc.. Pat said she was not informed about this and that it did not fall under her committee. However, she will contact Fred Smales and recommend that he allow us to have a booth at Trans Pac for this fund raising project.

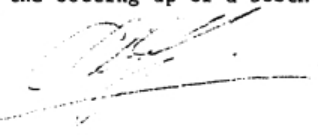

Pat further stated that the Trans Pac is very excited about having the Hokule'a and PVS participating this year. She said that the Hokule'a can participate in the following manner:

1. For the first day and a half, Hokule'a can be moored right outside of the Trans Pac headquarters along with the first to finish boat. She feels that Hokule'a will get the most publicity during these days since that is when most of the people arrive to see the finishers.
2. She feels that Barbara Jennings will arrange to have the Hokule'a photographed with several of the boats coming across of the finish line during the first few days. This again would be publicity for the Hokule'a and PVS.
3. She felt that there was no reason why the Hokule'a could not be moored after the first day and a half across the Ala Wai Channel adjacent to Magic Island. This again is publicity for more exposure of the Hokule'a.

She also asked if we were interested in hosting any of the yachts participating in the race and I was told later in particular to Windward Passage who would probably be one of the first finishers.

The hosting of the yacht would be an expense to the PVS and although publicity would be involved, I declined the offer for the following reasons: a) I don't think we could afford it right now; b) I don't think they are proper PVS activities, since basically it is just a big happy party with a lot of drinking, etc.

This was the extent of my conversation with Ms. Harmon and I will await her reply regarding the setting up of a booth at Trans Pac.

Dear \_\_\_\_\_

In the spring and early summer of 1980, the Polynesian Voyaging Society will sponsor a round trip voyage by its double-hulled Hawaiian voyaging canoe, Hokule'a, from Hawai'i to Tahiti. Like previous voyages of the Hokule'a and other activities sponsored by the Polynesian Voyaging Society, this trip is part of an ongoing program of research and education.

The prime purpose for this voyage is to provide the opportunity for a Hawai'i trained crew to meet the challenge of sailing long distances without the assistance of modern navigational instruments. The scientific documentation of the experience will provide evidence that can be used to test assumptions as to migratory patterns of the early Polynesians which are still regarded as theoretical. Data collected on this voyage will be developed <sup>the community and especially for</sup> ~~use especially in the~~ public and private school systems.

An additional objective of the voyage planned for 1980 will be to enhance Hawai'i's role as the liaison between the peoples of the Pacific and the United States through the promotion of trade and cultural exchange.

As you can see, we are planning an awesome and important undertaking. Some funds have been appropriated by the Legislature; however, the active and generous support of the Hawaiian community is an absolute necessity if our goals are to be realized.

The planners of the voyage have projected a total budget of \$100,000. These funds will underwrite the preparation of the vessel, recruiting and training of crew, purchase of needed safety and communication equipment, food provisions, and selected research and educational projects.

We ask your support so that our aims can be fulfilled. Your assistance and involvement in the accomplishment of our objectives is an investment in the economic, cultural, social, and educational future of our state. It is a sound investment that holds considerable promise for ~~a better~~ Hawai'i's future!

On \_\_\_\_\_ at the \_\_\_\_\_ we hope you will honor us with your goodwill and presence at our benefit.

An extravaganza called "Sea Journey" will include ~~several performers~~ <sup>coordinated by Allen Atkins (artist/designer)</sup> a walking dinner, <sup>skilled performers,</sup> fashions, and dancing for your enjoyment. Hokule'a, star of the show, will be there to welcome you. You will experience a show that you'll remember for years to come.

A purchase of ~~10~~ <sup>help to our</sup> 10 tickets @ \$30.00 by you will be a great ~~humanitarian~~ <sup>Calend.</sup> gesture. Your contribution is of course fully tax deductible, but more than that, you will become a part of <sup>a</sup> ~~an~~ worthy research and education <sup>pl</sup> program.

If your company decides to purchase ~~10~~ 10 tickets, we will have your name engraved as a donor on our special program for the evening.

We thank you kindly for your consideration.

From: Jo-Anne K. Sterling  
Board of Director

Subject: Fund Raising

It has been mentioned in a past board meeting, the <sup>possibilities</sup> ~~possibilities~~  
~~to produce one form of fund raising, which I will elaborate on.~~ <sup>a project</sup>

→ China House Restaurant, located on Kapiolani Blvd, near the Ala Moana Shopping Center, will accommodate up to 500 people. Tables are fifty in number, seating ten people per table.

An individual will be assigned to a table, he or she will have to sell tickets to fill the assigned table.

Example:

Ticket sellers	50 people
Per ticket	25.00
Gross sales	12,500.00
China House	4,500.00 (\$9.00 from \$25.00)
Net Profit	8,000.00

In addition, the Society could hold an auction. Various items could be made such as canoe paddles, replicas of koa cleats on a stand. There may be ideas generated into this project.

Donations from members, on items that could be auctioned out, such as paintings, lauhala hats, feather leis, matting (from Tonga Trading), carvings (Sam Ka'ai ?) fish-hooks et <sup>cetera</sup> ~~cetera~~ .....

I have found that holding an auction ~~surprisingly~~ has a tremendous effect on people.

Surprisingly

Entertainment for the evening could be on donation basis, one to two groups would be sufficient. I would like to reccomend Mr. Cubby Mahoe as emcee, and auctioneer.

If it is in agreement, I <sup>recommen</sup>~~reccomend~~ that committees should be established immediately, with a commitment on a date for this event.

M. Among

A. Guerrero presented the proposed budget for 1979, which covered the Administrative, Education Committee and Canoe Committee budgets.

G. Marullo stated that if the CETA positions are refunded the salaries of these people should be increased, as indicated in the proposed Finance Committee budget and the Polynesian Voyaging Society should supplement the increase.

FUND RAISING ACTIVITIES DISCUSSED:

a) Children's Book Project

1. Promote the books to Red China. (G. Marullo and M. Among will follow up.)
2. Approach various organizations/businesses to purchase the books in quantity and the PVS can distribute the books to different schools, youth organization, etc. in their name. They can also have the option of distributing the books themselves. A letter of endorsement should be included from individuals like Kenneth Emory, Sigfried Ramler, Barbara Hunt, etc.

FUND RAISING ACTIVITIES DISCUSSED: (continued)

a) Children's Book Project (continued)

2. (M. Among will locate the list of those firms who have purchased the books in the past.)

b) Grants

1. Sea Grant - Roger Kondo will research this area.
2. Marine Scholarship - In 1977 Kamehameha School/Bishop Estate awarded the PVS \$10,000 under a marine scholarship. A. Guerrero will contact G. Piianaia regarding the possibility of renewing this grant and perhaps having Kamehameha School/Bishop Estate finance the salaries and operating expenses of the canoe.

c) Sales

1. China House Restaurant - 500 seating at \$25.00 a head with an auction from items donated by various local artists. Time - June 1979. Propose this to the Board of Directors for their approval.
2. Second benefit premier showing of the National Geographic film.
3. Utilization of the canoe at its annual maintenance.

d) Annual Fund Raiser

Time: Aloha Week  
Place: Magic Island

Destination: Benefit Canoe Regatta

The Regatta would encompass races in various categories, i.e., ~~celebrity~~ industry, celebrity, spoof, etc. It would also include the participation of other Polynesian families (Tongan, Samoan, Fijian). Activities on the grounds of Magic Island could include entertainment, Polynesian games, and booths consisting of food and arts and crafts. These booths could be sold to the various participants.

POLYNESIAN VOYAGING SOCIETY

Administrative Budget

The goal of the Administrative body of the PVS is to have an office in which we can promote and coordinate the various PVS activities both in the educational area and the open ocean voyaging.

<u>Position</u>	<u>Salary</u>	<u>Duties</u>
Office Administrator	\$1,300	It is necessary that this individual coordinate all of the various meetings that the committees of the PVS have and at the same time work in conjunction with the Finance Committee and Educational Committee in researching grants and other fund raising areas.

Included in this budget is a code-a-phone, which we feel is necessary so that this individual will not be mandated to remain at her desk throughout the day and will be able to do the necessary errands and outside appointment work that will be required of this job.

This will be a flat 12 month contract with PVS. By doing this the society will not be obligated for any benefits, FICA taxes or other taxes that are involved in having a payroll.

Clerk/Typist	\$3.50 an hour	Alleviate the office administrator in the clerical work and provide typing assistance to the various committee heads.
--------------	----------------	---

We also propose to have a part-time clerk/typist who will work 20 hours a week at \$3.50 an hour.

Administrative Budget

Salaries:

Office Administrator	\$15,600	
Clerk/Typist	<u>3,640</u>	\$19,240

Operating Expenses:

POLYNESIAN VOYAGING SOCIETY

Educational Committee

The overall goals of the Educational Committee is to develop and disseminate educational materials on Polynesian voyaging. Specific goals this year are as follows:

1. Finalize the editing of "Na Hana Huaka'i" so that it can be published by Kamehameha School.
2. Presentation of classroom to various schools and other community groups, especially in October at the Kamehameha School so that teachers will know what materials are available on Polynesian voyaging and also to help them use effectively these materials in classrooms.
3. To advertise and sell all of our books on Polynesian voyaging.
4. To continue to show slides, films, and give talks about the Hokule'a, Polynesian voyaging, to school groups and others.
5. Our major objective is to participate with other organizations in order to share our knowledge of Polynesian voyaging. This can be done through active participation in classrooms, special educational pilot projects, etc.
6. To work on our ethnic study grants.

The Educational Committee will work hand in hand with the Canoe Committee in utilizing the Hokule'a as a floating classroom and hopefully will participate in the various island trips the Hokule'a will be taking this year.

POLYNESIAN VOYAGING SOCIETY

Canoe Committee

The goals of the Canoe Committee is to first of all maintain the Hokule'a in safe and sailable voyaging condition. The Canoe Committee, along with the Vessel Supervisor, will coordinate the training of individuals in the art of Polynesian sailing in order to achieve our goal of open ocean voyaging. The Canoe Committee will work in conjunction with the Educational Committee to use the Hokule'a as a floating classroom in all aspects of Polynesian voyaging for the children of Hawaii.

The major expense in this budget is that of the Vessel Supervisor and his assistant. Our experience in the last several years shows that it is necessary to have someone in charge of the Hokule'a in coordinating various activities, but more so, to make sure that the Hokule'a is in top condition. We cannot rely on volunteer help for this chore. This is a five day a week job, especially when she will be sailing around the island and at different ports. It is important that we have someone responsible for her condition and safety.

Dear Mr. Magoon:

In the spring and early summer of 1980, the Polynesian Voyaging Society will sponsor a round trip voyage by its double-hulled Hawaiian voyaging canoe, Hokule'a, from Hawaii to Tahiti. Like previous voyages of the Hokule'a and other activities sponsored by the Polynesian Voyaging Society, this trip is part of an ongoing program of research and education.

The prime purpose for this voyage is to provide the opportunity for a Hawaii trained crew to meet the challenge of sailing long distances without the assistance of modern navigational instruments. The scientific documentation of the experience will provide evidence that can be used to test assumptions as to migratory patterns of the early Polynesians which are still regarded as theoretical.

An additional objective of the voyage planned for 1980 will be to enhance Hawaii's role as the liaison between the peoples of the Pacific and the United States through the promotion of trade and cultural exchange.

As you can see, we are planning an awesome and important undertaking. Some funds have been appropriated by the Legislature; however, the active and generous support of the Hawaiian community is an absolute necessity if our goals are to be realized.

The planners of the voyage have projected a total budget of \$100,000. (We already have pledges amounting to \$43,000.) These funds will underwrite the preparation of the vessel, recruiting and training of crew, purchase of needed safety and communication equipment and food provisions, and selected research projects.

I am seeking your assistance and involvement in the accomplishment of our objectives and your investment in the economic and cultural future of our state. It is a sound investment that holds considerable promise for a lucrative yield. And your contribution is, of course, fully tax deductible.

Mahalo a nui loa for your consideration.

Sincerely,

*Myron Thompson*
