Dear Pinky,

I will be leaving for Auckland today (sometime in the afternoon)  
I have taken care of the following:

1) Crew airline tickets

Departing on Friday, December 13: Chad Baybaya  
Tava Taupu  
Nainoa Thompson  
James Salmon  
James Shizuru

Departing on Tuesday, December 17777;;; *stop*

Ben Finney  
Buddy McGuire  
Leon Sterling  
Billy Richards *stop*

Departing on Monday, December 16: *stop*  
Morty Bertelmann  
Bruce Blankenfeld

Departing on Friday, December 20  
Pat Aiu

Departing on Tuesday, December 31, 1985  
Harry Ho

2) All bus tickets have been purchased for Ben Finney,  
Buddy McGuire, Leon Sterling, Billy Richards,  
Chad Baybayan, Tava Taupu, Nainoa Thompson, James Salmon and James Shizuru.  
Holding the bus tickets for the above will be Chad and Ben. I will leave  
all tickets at the hotel (Waitangi Motel) at the front desk.

*2*

- 3) I have paid for the hotel rooms for Pat Aiu and Mike Tongg, and Bob Worthington at the Sea Spray. Oh, yes also for one night at the Sea Spray for Harry Ho. The hotel charged us for one night at the Sea Spray for Harry Ho because he was a no show.
- 4) I also enclosed in each crew members envelope their money to pay for their bus fare (if ticket was not purchased), airport tax, and bus fare to the airport from downtown Auckland.
- 5) I will leave a note for Chad as to where to return the van in Auckland and also I will leave him with the papers, since he is leaving on Friday.
- 6) I am leaving Pat Aiu with the remaining monies and he will give it  
*you.*

*Love,  
Mau*

MINUTES - September 5, 1985

OLD BUSINESS: (continued)

Membership: As of September 5, 1985, the PVS has 37 new members and 13 renewals. Since July 11, 1985, the PVS has collected \$12,780 in dues and contributions.

It was moved and seconded that the Annual Membership Meeting be held at the Bishop Museum Planetarium around the 17th of October. Ray Lanterman will confirm the date with Walt Steiger of the Planetarium.

The nomination committee members for this year will be M. Froiseth, M. Among, and L. Kyselka.

Education: It was decided to keep the educational exhibit in Hawaii instead of sending it to New Zealand. The exhibit is presently at Kamehameha Schools and will have to be removed by the end of September. The PVS will be participating in the Ocean Fair in October. Dr. Ben Young will be speaking to a group from Princeton at the Bishop Museum on September 9th. The Downtown Exchange Club would also like to have a speaker in October. N. Thompson is considering this function.

The map of the Pacific is complete. Jerry Muller is still waiting for a response from Hawaiian Airlines to print the map at their cost.

Hokule'a: All information regarding lifting Hokule'a has been sent to Ron Powell in Rarotonga per Bob Worthington. For security purposes all equipment has been transferred from Kamehameha School to 418 Halemaumau Street until a permanent storage area can be found.

Protocol: B. Worthington reported that Harry Ho has arranged to have water supplied to the Hokule'a for the Cook Islands to New Zealand leg. We need to work out the logistics of getting the water from Tahiti to the Cook Islands at little or no cost to the PVS. Another alternative would be to test the water in the Avana Stream. A water testing kit will be brought to Rarotonga by Harry Ho.

POLYNESIA VOYAGING SOCIETY

THURSDAY, SEPTEMBER 5, 1985  
Board and Planning Meeting

MEMBERS PRESENT: Len Withington, Laura Thompson, Myron Thompson, Lee Kyselka, Will Kyselka, Buddy McGuire, Ray Lanterman, Jerry Muller, Robert Worthington, *M. Froiseth*

The meeting was called to order by President Myron B. Thompson at 12:15 P.M.

The minutes for Thursday, August 29, 1985, were approved as circulated.

TREASURER'S REPORT: V. Elliott is on holiday in Australia. A financial report will be given at the next Board meeting by Lee Kyselka.

PRESIDENT'S REMARKS: M. Thompson reported that Hokule'a will depart Bora Bora for the Cook Islands on September 6, 1985. Hokule'a and the Dorcas are doing well. The ceremonies on Moorea did take place as requested.

Discussion centered on the various possibilities of getting weather information to the Hokule'a. It was decided to utilize the meteorologist and Stuart Kingan (PEACESAT) in the Cook Islands to get the weather information to the Dorcas. They in turn would immediately notify the Captain of Hokule'a. This procedure will be used only if foul weather is approaching and it puts the Hokule'a and her crew in danger.

OLD BUSINESS:

Host Committee: It was reported that the women's canoe club from Tautira will be participating in this year's Molokai to Oahu race. (Hokule'a will be moored and taken care of by the people of Tautira for seven months.) Since they will be going directly to Molokai something will have to be done on Molokai to host them. M. Froiseth informed the Board that she will work with Hannah in putting something together. Gabby L. from Tahiti will also be in Hawaii getting his canoe to meet racing specifications. He will be assisted by the Froiseths and will be staying in Makaha.

My Dear Friends Myron and Laura,

Quite some time has elapsed since our all to since including the tragic death of Margaret thanks to the kindness of my relatives and friends including many from mainland United States, I have been able to get above it all as I am sure Margaret would have wished it to be.

One thing I'm certain of and that is Margaret's spirit is totally committed to the success of the Hokule'a project. She was that sort of person - no half measures!

Hector and Hilda gave a glowing report on their visit and in particular to the generosity and hospitality accorded them.

I do not know how your Maori cousin's will ever be able to reciprocate but meanwhile my Committee expresses it's appreciation.

A great deal of interest is being shown the project by our children age five to students at High School and Colleges throughout Northland and they anxiously await Hokule'a's arrival.

Laura, I received a card from Scott and it may well be that he and Sue could be coming to visit. They were especially kind to Margaret and I when we visited in '83'.

I will write more formally as soon as the Committee has a full report prepared.

Meantime, we all send our Aloha and respects to you all.

Yours Sincerely,

Tupi Puriri

Dear Sir:

Hawaii's double-hulled sailing canoe, Hokule'a and her escort vessel, Dorcas will be arriving in New Zealand during the early part of December.

The crew members will be hosted by the Waitangi Marae Trust. The individuals coordinating the arrival ceremonies are Mr. Tupi Puriri and Mrs. Hilda Busby of the Waitangi Marae.

The Hokule'a and escort vessel crew members all hold outward bound passage on Continental Airlines. Their airline tickets are being held on land and will be distributed to them when they arrive in Waitangi, Bay of Islands. The length of stay in New Zealand for the crew members will not exceed fourteen (14) days, and they will be housed at the Waitangi Motel and Waitangi Marae.

Attached for your perusal are copies of documents that are being carried on board the Hokule'a. They include the following:

- a) New Zealand Ministry of Agriculture and Fisheries
- b) Yacht Report Form (includes Hokule'a crew members and passport numbers)
- c) Information on the Escort Vessel Dorcas
- d) U. S. Customs - Clearance of Vessel to a Foreign Port

TAINUI

TRAVEL TOURS

TOUR NAME: Kamehameha School Group / Hawaii 2000

DEPARTURE DATE: 26 November 1985

DURATION: 14 days and 13 nights

DESCRIPTION: Scenic and educational tour of Northland  
and Central North Island

PAX: 2 adults and 10 students

TOUR ITINERARY

P.O. Box 80090, Green Bay, Auckland, New Zealand.  
Telex NZ 63070 TAINUI

This party comprises two adult chaperons, five female students and five male students from Kamehameha School in Hawaii. The party have assembled in New Zealand as the official welcoming committee for the Hokulea Canoe, arriving in Paihia on or about the 26 November.

The following tour itinerary has been compiled bearing in mind that at any point during the tour it may be necessary to return to Paihia by the quickest possible method to complete the welcoming ceremony. However, due to the fact that concerts are being arranged at three venues namely Auckland, Rotorua and Te Awamutu and that these may involve large groups of people assembling, every endeavour must be made to satisfy these obligations.

This tour will be conducted by driver/guides Robyn Meritt and Bill Ropata. Both these persons are Maori people with many years of experience in the travel business.

Day one      AUCKLAND/PAIHIA  
26/11/85

Morning arrival at Auckland International Airport - group is met by Tainui Travel.

You will have the services of a Tainui driver/guide and micro bus for the duration of your stay in New Zealand. We leave immediately for the Bay of Islands, a trip of approximately three and a half hours. We travel through rural Northland farming land and stop briefly for a picnic lunch (Tainui style). This comprises of fresh New Zealand meats, pickles, cheeses and farm style bread, salads, fresh fruit and beverages. Whenever we have a picnic meal on this tour it will be at some scenic

location and today we will probably stop at Waipou Cove, south of Whangarei city. We travel on to the Bay of Islands arriving mid afternoon.

NOTE:

This evening you will take part in a Hawaii 2000 arranged programme and welcoming ceremony at the Waitangi Marae.

Accomm: Seaspray Motel, Paihia  
Meals: Picnic lunch (T)  
Dinner (Hawaii 2000)

Day two PAIHIA ONE DAY EXCURSION NORTHLAND AREA

27/11/85

8 a.m. Breakfast

9 a.m. Today your Tainui guide will give you a full day sight seeing excursion of Northland. We leave Paihia and travel to Kerikeri where we have an opportunity to pick fruit at one of the many orchards in the area. We are able to visit some local crafts people and wellknown New Zealand potters. We visit the oldest building in New Zealand and learn something of the Maori and European history that shaped the area. After leaving Kerikeri we drive to the coast where we pass through the rural coastal communities of Matauri Bay, Wainui Bay and Whangaroa Harbour. This sub-tropical paradise is reknown for its clear waters, abundant sea food and big game fishing. Further north we pass by more beach resorts including some where we are able to gather sea food if the tide is right. We have a picnic style lunch today at one of these beaches before travelling on to Ahipara where we can view the famous 90 mile beach and impressive sand dunes.

Having travelled from the east coast across to the west coast, we now go inland passing over lovely Maungamuka mountain range. We divert off the beaten track to the recently opened kauri sanctuary at Omahuta. We take a short, but well planned walking track which takes us by some of these awesome giants. We will have an opportunity to learn something about the flora and fauna of our northern sub-tropical forests.

After leaving the forest area we travel south through the rural communities of Okaihau and Ohaewai and Waimate North, famous northland battle grounds during the troubles between the Maori and European in the early 1800's. The history of this area will be related to you by your Tainui guides.

This evening at leisure.

Day three- PAIHIA

28/11/85

Today you have at leisure to explore the Treaty House at Waitangi you can see the Governor's residence and the beautifully carved wharanui on the National Marae where carvings representing all tribes are housed. You will also see the gigantic war canoe Ngatokimatawhaorua. From your accommodation in Paihia you are also able to take a ferry across to the historic township of Russell.

Day four      PAIHIA/AUCKLAND  
19/11/85

Today we return to the city of Auckland. We have an early morning departure after breakfast, a picnic lunch on route and arrive at our accommodation early afternoon. This evening you will be hosted by the Island Resource Centre in Jervois Road by members of the Auckland Polynesian Community. The afternoon is at leisure where you will have an opportunity to rest. At 5 p.m. we have arranged for you to practise at the Resource Centre before dinner. A programme has been compiled by the Resource people and they have invited approximately 200 guests for the evening performance. You will be hosted to supper afterwards.

Accomm: Whittaker Lodge, Whittaker Street, Auckland (Tainui)

Meals: B. (Hw 2000)

Day five      AT AUCKLAND  
20/11/85

8 a.m. Breakfast at Whittaker Lodge.

Mid morning transferred to Queen Victoria Maori Girls School. Today is prize giving ceremony and is the last day of school for the pupils. It is an opportunity for the group to mix with young people of their own age. We will arrive with other visitors for the powhiri (Maori welcome) and we will be expected to take part in this welcoming ceremony. Our group will be honoured guests and may be asked to put on a guest appearance for the pupils who by the way will also be performing. The prize giving is followed by a luncheon hosted by the Queen Victoria girls.

1 p.m. The group will then be given a brief orientation of Auckland by Tainui. This will include a visit to the Auckland Museum where they will receive a fully escorted tour of the Maori Court. The

The remainder of the day they are at leisure to explore the city and find a restaurant for dinner.

Accomm: Whittaker Lodge (Tainui)

Meals: B. at Whittaker Lodge (T)

L. at Queen Vic. (T)

D. at own expense

Day six

1/12/85

AUCKLAND/ROTOITI

Today we leave Auckland and head south to the thermal region of Rotorua. We travel through the market-gardening area of South Auckland and over the Bombay Hills down into the Waikato Basin. We cross the Hauraki Plains to the township of Thames. At one time in the late 1800's Thames was reputed to be the richest gold mining town in the world. There were up to 200 hotels lining the streets of Thames. There is still much evidence of the gold mining activity on the foothills surrounding the township. We will visit one of these abandoned mine shafts where we will stop for morning tea. After leaving Thames we travel through the Waikino Valley passing by one of the world's largest battery stampers used for crushing gold bearing ore. We travel onto the township of Waihi which was also a major gold mining centre at the turn of century. The famous Martha mine is situated in this township. After leaving Waihi we travel on into the Bay of Plenty area where a major diversification of the rich farmlands is taking place. In this area we will see every conceivable type of fruit and vegetable grown in New Zealand including Advocado, Fejoa, Citrus and of course the famous Kiwi Fruit. We have lunch in this area before travelling on to the seaside city of Tauranga and the seaside resort of Mt Maunganui. We leave the sea at this point and travel inland to our overnight destination Lake Rotoiti.

The highlight today is our 6 p.m. arrival at Waikohatu Marae on the shores of Lake Rotoiti. On arrival we participate in the

- 6 -

powhiri (welcome) onto the Marae. We join Amy Tan and her group for an overnight stay at the Marae. After the welcome we will have dinner and then there will be a group discussion in the wharenuī (big meeting house) on Maori arts and crafts including carving and the use of the flax plant. This discussion will be lead by various members of the Marae and a well-known authority on the history of the Maori people in this district, Mr Don Stafford.

Later that evening we take the opportunity to go to a nearby glow-worm grotto followed by a bath at some natural hot water soda springs which belong to the tribe. This is followed by supper and bed.

Accomm: Waikohatu Marae (T)  
Meals: B. Whittaker Lodge (T)  
L. Picnic style (T)  
D. Waikohatu Marae (T)

Day seven AT ROTORUA

2/12/85

3 a.m. Breakfast.

After breakfast we drive into the Rotoiti Forest wilderness area where we have an opportunity to appreciate the natural flora and fauna of New Zealand. We travel to the head waters of Lake Tarawera and follow the river for some distance along its path through a tortuous gorge. At one point the river, a raging torrent disappears down a large hole and for the next half a kilometre the river bed is completely dry. During some violent volcanic eruption the floor of the valley has slipped some 1000 feet. At some stage there has been a natural waterfall formed and this has since dried up due to the river disappearing underground. The river now re-appears midway down this waterfall some two or three hundred feet from the floor of the valley where it continues on its path through forests and farmland to the sea.

- 7 -

This is an area of spectacular scenery rarely seen by visitors to this country.

We have lunch in this area before travelling to Lake Rotorua near Ngongataha. Lake Rotorua is fed by many natural springs on the edge of the vast crater that forms the area. One of these springs is Taniwha. It is a natural breeding ground for the Rainbow and Brown Trout. We visit Taniwha Springs and see many examples of trout and New Zealand water fowl as well as deer and other animals. The Taniwha Spring is at the base of an ancient Maori Pa site. Don Stafford has kindly made himself available to spend an hour or so with you at this Pa site and to explain the significance of various earthworks and just how the Pa site was utilised.

Tonight we have arranged for you to provide a concert at the Rotorua Civic Centre. The visit to the Pa site should be completed by about 2.30 p.m. at which time you will be taken to your overnight accommodation for a period of relaxation. Later in the afternoon you will be given access to the hall to practise. Before the concert you will have dinner. It is anticipated that a number of local Rotorua schools will also be performing in conjunction with your act. A number of invitations have been sent out to parents and pupils of these schools.

ay eight  
'12/85

ROTORUA/TAUPO

Early breakfast.

Today we travel on to Taupo, but before doing so we will visit

- 8 -

some of the major attractions in the Rotorua area.

9 a.m. We visit Whakarewarewa Thermal Village and Arts and Crafts Centre. Your Tainui guide will take you through the thermal area as well as a replica Maori village. Before lunch we give you an opportunity to ride the skyline Gondola to perhaps try out the Luge run for a few thrills.

Today we have lunch with Val and Denny Mohi who have a small farm in the Ngongataha area. They have all types of animals on the farm which you are able to see and touch. These include horses, cows, calves and of course sheep.

After lunch we leave the Rotorua district and travel south to the township of Taupo which sits on the northern shore of the lake by the same name. Lake Taupo is in fact the crater of an extremely large volcanic eruption. It is said that they have discovered rocks from this eruption on the sea bed north of Fiji.

Tonight after dinner you have at leisure.

TAUPO/TE AWAMUTU

After breakfast we sight see in the Taupo area. We include a visit to the Honey Centre, Huka Falls on the Waikato river and the weird thermal region called the "Craters of the Moon". We leave Taupo and travel north on the main highway, our destination the small Waikato township of Te Awamutu.

- 9 -

We arrive mid-afternoon for a powhiri at the Te Awamutu School Marae. This is a unique complex. It was opened some seven or eight months ago. It was carved by the master carver Paki Harrison. It is one of the most modern Marae complexes in the country. It is unusual in that it is on the grounds of the local High School, but has been dedicated as a proper Marae. The building of this Marae was a total community effort and it has had regular use by the people of Te Awamutu. The people of this town have a great community spirit and are extremely happy to be hosting our Hawaiian group. They are making arrangements to have a concert in which their pupils will also participate to be held this evening in the school hall adjacent to the Marae. Prior to the concert they wish to host the group to a sit-down dinner. The Marae itself has the most modern facilities and is extremely comfortable. There will be ample opportunity, due to our early arrival for the group to practise before dinner.

Day fourteen

1/12/85 DEPARTURE DAY FROM AUCKLAND

After breakfast last minute packing of gear before midday transfer to airport for afternoon flight departing to Honolulu.

Accomm: N.A.

Meals: B. Whittaker Lodge (T)  
L. PAX responsibility  
D. N.A.

NOTE:

Due to the date of the arrival of the Hokulea being totally speculative at this point timings and content of this itinerary may well change. We have had to however, confirm all hotel bookings and in respect of the concert performances we have had to make confirmed bookings for the three venues. It is intended that should the Hokulea arrive or at any point during the tour that the itinerary be abandoned for a short period while the group returns to the Bay of Islands for the welcome and that the tour then be taken up again at whatever point it left off. This may in fact cause some logistical problems with regard to room bookings, but we will work through that when it occurs. It will be noted that the last three nights and four days are in the Auckland area, it is hoped that the Hokulea will actually land somewhere in this time span and in actual fact the group will be in the Bay for this period time. It is mentioned that we have had to make some bookings for this period due to the shortage of rooms at this time of the year.

Honolulu  
Hawaii 96822  
USA

Dear Dr Kilonsky

John Kidson has passed on to me your request for details of our marine broadcasts in connection with the proposed voyage of the Hokulea Polynesian Voyaging Society from Tahiti to New Zealand via Rarotonga.

Unfortunately the publication giving details of our marine broadcasts is being reprinted and is not available. However you will find attached pages which give details of the radio-telegraph and radio-facsimile broadcasts together with the associated frequencies. I have highlighted the broadcasts that should be relevant to your voyage.

I have also included a map showing the areas for which New Zealand provides warnings and forecasts. The eastern boundary was extended to 120° west from 1 September 1985. To the north of 25° south Nandi in Fiji provides warnings and forecasts for the area west of 140° west and these are broadcast from New Zealand. You will be able to obtain forecasts for the area east of 140° west from the radio station in Tahiti.

I hope you have a successful voyage, and please let us know if you require any further information.

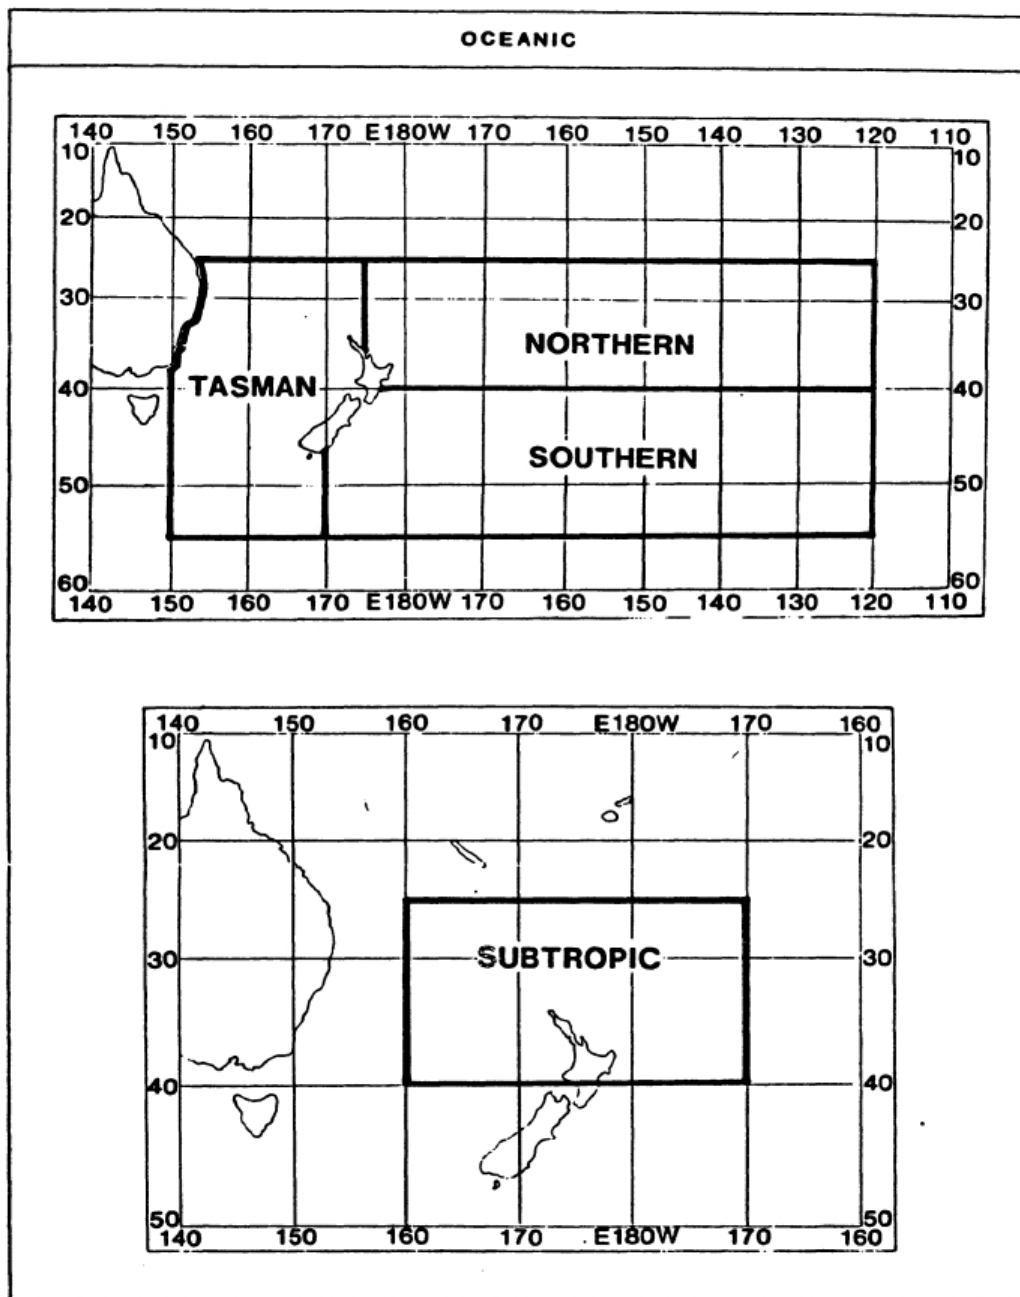

Yours sincerely

A handwritten signature in cursive script, appearing to read 'A A Neale'.

3 October 1985  
Page 1/3

TO: PVS Board of Directors  
FROM: E.D. Stroup, Navigation Research Committee  
SUBJ: (1) ARGOS PTT beacon  
(2) OCEANUS article  
(3) Navigation Research Committee chairmanship

(1)

We have been offered the loan of an ARGOS PTT for the Cooks-N.Z. test; the instrument will be available when the U. of Washington vessel "Researcher" arrives here about 20 October. Processing of position data will be provided by their project.

The loan is offered under the following conditions: they need to re-deploy their buoys early in 1986, so we will have to agree to return the PTT as soon as Hokule'a reaches New Zealand, and we have to guarantee them a replacement unit if the one we have is lost or damaged. We can use the period between now and the canoe's departure from New Zealand to purchase a PTT of our own; the U.W. group has offered to continue to process the data for us free of charge. I require the Board's approval to make the above guarantees, and to move ahead with purchase of a new PTT; the price of an individual unit is about \$2,000 (batteries and other incidentals will add only a small amount to this).

It is important to be aware that the ARGOS system is not vital to the mission, even for safety. If you think of a man holding up his pants with a belt plus suspenders, then for more safety he adds thumbtacks, the ARGOS system would be like him adding adhesive tape on top of everything else.

The primary safety is provided by the escort. Keep in mind that they will be traversing little-travelled parts of the ocean; if trouble comes, it's not like being in the North Pacific or North Atlantic, with extensive long-range search and rescue capability readily available from the U.S. Coast Guard and Navy, and with dozens of commercial ships crossing the region at any time. They must, repeat MUST, be prepared to rely on the escort for help.

38

3 October 1985  
page 2/3

Secondary safety is provided by the long-range communication capability, and of course by the satellite-navigation receivers on both canoe and escort.

A third -- and extremely important -- level of safety is provided by the emergency beacons, which would be activated if there is no hope of self-rescue. These beacons ARE RECEIVED BY RUSSIAN AND AMERICAN SATELLITES; they do not require that aircraft be in the vicinity. A recent rescue in the North Pacific was triggered by such a device on a disabled sailing vessel. These emergency beacons are more valuable than the ARGOS beacon for safety, because there can be no question: if a beacon is activated, help is needed.

Note also that the ARGOS headquarters distinctly states that their system should NOT be relied on for primary safety; they disclaim responsibility for such use. The ARGOS function is position determination and data transmission, not rescue.

With regard to navigation data, the ARGOS system is not essential to our project as long as the sat-nav data are being recorded on board either vessel. (Note: remember that in 1980 the Ishka had no sat-nav system, and, as it turned out, the celestial navigation being done on the Ishka was extremely sketchy. The accuracy of the ARGOS system was a Godsend. For the present voyage, however, the sat-nav units aboard are approximately as good as the ARGOS system, so we would not gain anything in accuracy with ARGOS.) The only thing we would not have is the direct readout of position independent of the vessels; instead, we would have to get the positions from them by radio. This is an inconvenience, but would be possible to live with if we couldn't afford ARGOS.

(2)

The OCEANUS article should be out, but I haven't received any copies yet. Woods Hole Oceanographic Institution (the copyright holder) has given PVS a blanket OK to use the article in any way we want.

29

3 October 1985  
page 3/3

(3)

I regret that I must resign from the Chairmanship of the Navigation Research Committee effective immediately. The Board should designate a new leader for this important project as soon as possible. Unless otherwise directed, I will continue with efforts to make the ARGOS arrangements until that situation is secure. I will continue to work with the project as an ordinary member of the committee if the new chairperson so requests.

The cars in each port, will be Toyoto Corolla types,  
manual shift.  
Watch out for Bob's driving!

# POLYNESIAN VOYAGING SOCIETY

BOX 19000-A / HONOLULU / HAWAII 96819

30 April 1985

Mr Tony UTANGA  
Secretary  
Ministry of Internal Affairs  
RAROTONGA.

Dear Tony,

We are just in the process of completing our New Zealand leg of the Polynesian Voyaging Society Advanced Delegations planning program. Most of us are departing for Honolulu this week.

The welcome, co-operation and hospitality of the Cook Islands is vivid in our memories. In particular, we extend our appreciation for your commitment to the Hokule'a project. Indeed the PVS Advanced Delegation is impressed with the support you arranged on our behalf.

In the near future, we will be following-up with further communication to you, the Ui Ariki, the Ministry of Trade, Labour and Transport and other Cook Islands resources.

While in New Zealand the PVS Advanced Delegation discussed the subject of a Cook Islander joining the Hokule'a crew on the Raiatea-Rarotonga or possibly on the Tahiti-Rarotonga leg.

The PVS suggests the following Guidelines for the selection of a Cook Islands crew member:

\* COMPATIBILITY WITH OTHER CREW-MEMBERS

Human relation skills in relating and intergrating oneself with thirteen other crew-members.

\* MENTAL HEALTH

Positive attitude in being able to live in a confined space with no privacy, dietary restrictions and withstanding constant assault by nature's elements.

.../2

VOYAGE OF REDISCOVERY

# POLYNESIAN VOYAGING SOCIETY

BOX 19000-A / HONOLULU / HAWAII 96819

- 2 -

- \* PHYSICAL HEALTH  
Pass a medical physical examination certifying the candidate's physical well being to undertake this voyage.
- \* WILLINGNESS TO LEARN  
The capacity to learn quickly and well additional seamanship skills.
- \* BASIC SEAMANSHIP SKILLS  
Demonstrate ability to stand watches, tie seaman's knots, work sails, etc.
- \* CARPENTRY BACKGROUND  
Possess basic carpentry skills.
- \* AGE  
Be below the age of 50 years.
- \* KNOWLEDGE OF COOK ISLANDS MAORI CULTURE  
Have the ability and knowledge to act as ceremonial Maori Speaker for the Hokule'a welcome ceremonies as it enters Avatiu Harbour.

While in Rarotonga, Gordon Piianaia, Captain of the Hokule'a was approached by many interested crewmember candidates. They all possessed varying seamanship qualities. While the ultimate decision is yours, Captain Gordon Piianaia recommends the selection of Tuakana GREIG of Ngatangia as the Cook Islands representative crewmember.

Captain Piianaia feels Tuakana possess the best combination of the abovemention qualities that will ensure suggested participation. It is hoped you will give this recommendation serious consideration. If there is need for further clarification, please write to us.

Again, we anticipate working with you toward a mutually rewarding goal.

Aloha,

C.C. Sir Thomas DAVIS KBE  
Pa Tepaeru Ariki  
Jon JONASSEN

  
Gordon PIIANAIA (Captain)  
  
Bob WORTHINGTON (Liaison Officer)

The first is that I travel extensively throughout Northland, both in my capacity as Chairman of the Labour Party as well as Manager of the Akotahi Crafts Trust, I am able to bring this programme to the attention of a wide cross-section of people through both general conversation and in formal speeches.

While I will not be speaking in any "official" capacity, I would welcome the opportunity to be able to stand up and speak out in support of the programme, from the point of view of a person with polynesian heritage who is totally supportive of the Voyage of Rediscovery.

A supply of at least 100 leaflets would be more than welcome and of extreme value as I would leave them "sprinkled" behind me wherever I may go.

Secondly, The Auckland Regional Labour Party Conference is meeting in Auckland on May 10-12 and delegates from the Auckland and Northland region will attend representing 28 of the 95 electorates in Parliament.

I am confident that I can get "leave" from the Conference and its normal business, to address them for 10-15 minutes on the programme and to inform the delegates of the importance and significance the Voyage is to the history of New Zealand and to the Polynesian people of the Pacific.

Once again, I am not seeking a mandate to speak in any "official" capacity, but rather as an individual who has a cultural interest in promoting the programme. A supply of 200-300 leaflets would not be out of place and before speaking to the Conference I would consult with Bruce Gregory and members of his Maori Committee within the Party.

As time is short, it may not be possible to receive such a quantity of leaflets in time, however, photocopying sufficient quantities for distribution can be arranged.

Thirdly, The Labour Party Annual Conference meets in Christchurch in September. 600 delegates from all over the country will be in attendance and once again I am confident that I can get "leave" from the Conference to address them and ask that they take back to their constituencies "news" and information of the Programme.

Leaflets for distribution to delegates would be well received and at least that information is taken back to the community sector in the country.

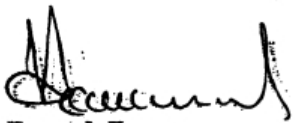

to the people of Polynesia and to all those with a heritage in the Polynesian triangle and I would hate to think that the programme would struggle in New Zealand to receive the recognition and support it deserves, simply through a lack of adequate promotion and education of the very people who are culturally affected.

However, before moving in any direction I will await your advice. I am aware of the Committee that is in existence and in no way do I wish to "step on toes" or jeopardize their activity.

Any response you may wish to make would be very much appreciated and I thank you in advance for your attention and consideration.

I extend my best wishes to yourself, Jean and the family and look forward to "catching-up" with you in New Zealand later in the year.

Kindest Regards.

Howard Henry.

Myron B. Thompson  
President  
Polynesian Voyaging Society  
Box 19000-A  
HONOLULU, HAWAII 96819 U.S.A.

Dear Sir:

Further to your recent visit to Bay of Islands and subsequent phone discussions with Hector Busby and your advice to him that Hokule'a would be leaving Hawaii about one week ahead of the prior Sail Plan,

Hector is leaving for Hawaii on about the 15th of June. Pressure of work here in New Zealand makes it impossible for me to accompany Hector. Believe me I am fully engaged here, not only in development work for Waitangi, but also in ensuring that our arrangements for the welcome, hosting and accommodation of Hokule'a and its crew and supporters is on target.

My Committee received a request from the Tainui Trust Board for inclusion of Hoturua Kerr as a member of the crew. Requests were also received from other districts within New Zealand. On considering all nominees, the Committee has decided that the nominee from the Nga Toki Matawhaorua Canoe Association - Stanley Conrad - has our unqualified support. Stanley is a young man of 23 years; is a qualified commercial line fisherman with a lifetime of experience of the coastline of the North Island; has been a member of the Nga Toki Matawhaorua Canoe crew since its re-launching in 1974 and, most importantly, has the support of the Tai Tokerau Maori Cultural Association and the Waitangi Marae. These latter groups will form the basis of the workers involved in the welcoming and subsequent departure arrangements for Hokule'a.

Gordon mentioned his support for Poturua as a member of the crew. There seems no reason why Hotu could not be a member of the crew for other legs of the voyage but, as mentioned previously, our wholehearted support is for the nominee from our district.

My Committee has a booking for Stanley to fly to Rarotonga on 14th November 1985. If the Society is sticking with a departure from Rarotonga on 18th November, then this might be still the appropriate time. However, if the departure from Cook Islands

#### NOMINATED PATRONS FROM

RINGATU FAITH

ROYAL NEW ZEALAND NAVY  
WILLIAMS FAMILY  
MAORI WOMEN'S WELFARE LEAGUE  
NEW ZEALAND MAORI COUNCIL  
PATANA FAITH

5th May, 1985.

has been moved forward could you urgently phone Hilda (at Hector's phone number) and let her know:

1. Proposed departure date of Hokule'a from Cook Islands.
2. Proposed arrival date in Cook Island of Hokule'a crew for the Rarotonga/New Zealand leg.

Flights only leave New Zealand for Cook Islands on Thursday of each week and they are heavily booked. I will pencil in a booking for the 7th November but would appreciate early advice.

I am obtaining a full medical report on Stanley and this will be forwarded as soon as available. Incidentally, he has a minimum of a month's leave from his employment and this can be extended as required.

Attached please find details of David Clinton-Baker who has the Committee's support as a crewman/member of Hokule'a. I understand from Hector that you have arranged a doctor/crewman for the Cook Islands-New Zealand leg but are prepared to accept Dr Clinton-Baker on the New Zealand-Fiji leg.

The Committee has a delegation meeting Ministers of the Crown at Wellington in two weeks time when we hope to finalise government arrival and departure requirements for Hokule'a. Will report to you in due course.

It seems almost certain that Hokule'a will be stored at the Waitangi Marae site while in New Zealand. The Committee will be organising some fund raising activities while the canoe is on land. You were going to let me know if we could use the name and a photograph of Hokule'a for fund raising activities within New Zealand.

You advised that your insurers required a nominated person, as a contact for them in New Zealand. That will be my responsibility as Chairman of the Committee. For insurance records: Tupinia Puriri, Justice of the Peace, PO Box 198 Paihia, N.Z.

All Maori Trust Boards in each district of New Zealand are being invited to put a representative aboard Nga Toki Matawhaorua Canoe which will be involved in welcoming arrangements for Hokule'a. I understand you have had a letter from Howard Henry of Kaikohe concerning involvement of other Polynesians living in New Zealand in the welcome. I will be contacting him and other Island groups with a similar invitation.

I understand you have booked accommodation at the Waitangi Motel. Are you able to let me know whether Marae accommodation is required for crew or other members of the support group. In any case, dates for arrival of the support group would be appreciated.

Margaret and I have just completed two weeks holiday in Rarotonga and everything seems to be ok there for Hokule'a arrival and departure. What a delightful place!

To whom it may concern

Turanga Hoturoa Barclay-Kerr  
18 Pikitea Rd  
Mangere Bridge  
Auckland  
New Zealand

The New Zealand Maori Sports' Federation(Inc) under authority of the New Zealand Maori Council is privileged to support Turanga Hoturoa Barclay-Kerr as a nomination to the crew of the Hokule'u.

It is understood that this canoe will be undertaking a voyage from Hawaii via Rarotonga to Aotearoa (New Zealand).

Hoturoa has been prominent in the leadership and training of the canoe crews of the Waikato Tribes for some years. His involvement with the annual regattas at Turangawaewae extends over thirteen years.

Last year he was selected to participate as a crew member in the Singapore Dragon Races, New Zealand crew.

In addition to his interests with the canoe he has been a keen Rugby League player.

The Federation feels that having a Maori from Aotearoa will enhance the significance of this historical voyage of rediscovery.

Kia ora.

Mr Myron B. Thompson,  
President,  
Polynesian Voyaging Society,  
P.O. Box 19000 A,  
Honolulu 96819,  
HAWAII

Dear Myron,

Greetings from New Zealand!

I hope your visit to our country had been fruitful and rewarding in view of your proposed project later this year.

I write to let you know that I shall be in Honolulu from 5-12 June this year, attending a colloquium organised by the Hawaii Heritage Centre, the Hawaii State Historic Preservation Office and the University of Hawaii.

We have arranged accommodation at Lincoln Hall, East-West Centre; our main contact there will be Mr Don Hibbard, organiser of the colloquium, Department of Land and Natural Resources, Division of State Parks.

Please convey my best wishes to Chris, Robert and Gordon of the Hokule'a.

Yours sincerely,

Le Mamea-T. Sefulu I. Ioane  
DIRECTOR.

Dear Pinky:

Thank you for your letter of March 2. We have known of your worthy project for some time now both from the news and from a long discussion I had on it with Mr. Chris Conybeare and Joy Chong of Hawaii Public Television. Dr. John Charlot, Research Associate with our Institute, also participated in that discussion.

Although we cannot assist you financially in the project, we would like to help you informally in whatever way we can. You might also contact the Pacific Islands Development Program of the East-West Center.

Please keep us informed of the latest developments in your important undertaking.

Best wishes, as always.

Sincerely yours,

*Mary*

Hawaii 96819

*Dear Mr Thompson,*

He maungarongo ki runga ki te mata o te whenua; he whakaaro pai ki nga tangata katoa. Arohaina nga teina me nga tuakana.

Ko te wehi ki te Atua te whaka aronui koia te timatanga, koia te whakamutunga; me whakahonore tona ingoa.

Tena koutou, tena koutou, tena koutou; nga mate haere koutou ki te putahitanga o Rehua, moe mai i roto i te Atua.

Tatou nga kanohi ora nga wairua ora o nga tupuna matua; tena koutou, tena koutou, tena koutou katoa.

Hoturoa Kerr has applied to be a crew member aboard Hokule'a on the last sector of its Pacific voyage and I have considerable pleasure recommending this young man to you for selection.

Hoturoa is very well known to me and to my colleagues and I consider, without qualification, he would be a most suitable participant in this epic voyage and an ideal representative for Maoridom.

Through my dealings with his parents I have known Hoturoa from an early age. His father, Lecturer in Maori Studies at Auckland University, is a kaumatua often acting as spokesman for the Maori Queen. His mother, one-time Tutor at Auckland Technical Institute and now Organising Tutor for Te Kohanga Reo, frequently serves as Lady-in-Waiting to Te Arikinui Dame Te Atairangikaahu both within New Zealand and on overseas tours.

Hoturoa has been imbued with Maoritanga and is a fluent speaker of Maori as well as English. He graduated from the University, majoring in Maori and Anthropology and now intends completing his Master's degree by presenting a thesis on Canoes of Polynesia which is why he has been in Hawaii these several months.

2..

Perhaps when he was eleven or twelve, Hotu was accepted as a bailer boy on the great war canoes of Turangawaewae; after learning to be a paddler he displayed so much skill and knowledge that he was promoted to Captain of Rangatahi (or alternatively Taheretikitiki) - at sixteen, the youngest captain ever appointed this century.

Every year since 1976 Hoturoa has trained the Auckland youth for his crew; in part this was to occupy them well, to take many of them off the streets and to teach them the worth of taha Maori.

In 1983, and again in 1984, he was selected for the New Zealand crew that took part in the Dragon Boats Festival at Singapore acting also as the appointed Cultural Adviser. And in 1983 he was given the singular honour of being captain of the war canoe aboard which HRH The Prince Edward was the distinguished passenger during the great parade of canoes at the Turangawaewae Regatta.

Hoturoa has been awarded twice the Board's Tumate Mahuta Memorial Educational Scholarship; three years consecutively he won the Polynesian Speech Contest for Secondary Schools in the Junior and Intermediate grades. His interests include Rugby, Indoor Basketball, surfing and swimming.

This young man is stable, reliable, mature, sensible, compatible, quietly sociable and able. He is nicely confident and assured, is a good listener, not loquacious but fluent and articulate in conversation and discussion. Hoturoa has always been willing and wanting to learn. Another fortunate trait is his unselfishness and readiness to help.

I speak of Hoturoa highly because that is how I regard him.

Kia ora

RE: YOUR SON'S CANOE VOYAGE TO NEW ZEALAND.

Dear Mr Thompson

You and Mrs Thompson kindly came into see me with Sir Graham Latimer earlier today (24.4.85) to let me know that your son, Nainoa is intending to retrace his ancestors' journey and travel in a specially prepared canoe from Hawaii to New Zealand. I think you told me he would leave on the 22 June and will arrive here sometime in mid December.

Naturally I was particularly grateful for your bringing this venture to my attention, it may well be that sometime nearer their arrival (which I understand is to be at Waitangi) we Maori people may be able to take some small part in what will clearly be an event of great interest to many people. No doubt you will keep me informed.

Thank you very much for coming to see me, I do hope you enjoyed stay in New Zealand and have had a safe trip home to Hawaii.

Yours sincerely

Peter Tapsell  
Minister of Internal Affairs

Mr. Jioji Kotobalavu  
Permanent Secretary  
Foreign Affairs, Tourism & Civil Aviation  
Government Buildings  
Suva, FIJI

Dear *Jioji*:

I forward herewith a copy of a letter from Myron B. Thompson, President of the Polynesian Voyaging Society (PVS), to the Prime Minister. You will note that basically PVS is requesting assistance in obtaining permission to enter Fiji, and information with regard to how much Fiji might wish to be involved in the rediscovery program. Also enclosed is a list of topics which the PVS's advance party is seeking information and would eventually wish to discuss with relevant government departments and others in Fiji.

You would be in a better position to know when the P.M. will be returning to work after his convalescence, but I would suggest that you might like to get this information out to the relevant departments, and possibly ask them to respond to some of the administrative matters raised in Thompson's letter, either directly or through me in this Program.

Any assistance you might be able to give to assist the Polynesian Voyaging Society will be greatly appreciated.

With kind regards,

Yours sincerely,

*Marlene among  
for each member  
of our committee  
or your Board*

May 26, 1985

TO: Polynesian Voyaging Society  
RE: Tour to New Zealand  
FROM: Hawaii 2000 Trudi Zelko

Enclosed is information that could be used in the invitation letter to all your mailing lists.

Suggestion: Myron Thompson write a welcome/Aloha to everyone - short paragraph - follow with my information on the outline of the tour.  
On the reverse side of the paper, list the tour packages and costs and options.

A separate paper on my stationery with registration (enclosed)

Please circulate this information and add, delete, change as you wish.  
We should have this ready to be mailed by June 1st, if not actually mailed.

I called Judy at the Waitangi Hotel. She was delighted to book rooms at the hotel but had 2 dates that are completely booked out. Dec. 1 and 6. So I took 30 rooms for Nov. 26 to Dec. 1 and Dec. 3 to 6. We can tour the north islands or Auckland for 2 nights. (providing the ship does not arrive then).  
If any rooms are available for the entire period, she will save them for us.

A nearby motel (suggested by Judy) and closer to the Marae is Sea Spray. Beryl Taylor said she would reserve units for us. Sleeps 2/3 or even 4. One bedroom, lounge and kitchen units. She and her husband Richard will try to give us as many units as possible of their 24 units. She is writing to me this coming week. They suggested that the 8 unit motel next door to them is good and they will advise me if they can confirm any units there. This is just general information for you. I will continue to write, telex and talk to each. (They are expecting Rosalie Lyons Davis and me to see them Aug. 3-6)

I suggest we mail as soon as possible this information. We can follow it up with a newsletter of additional information...tour packages to other areas, costs of local tours in New Zealand, clothing lists, etc.

Word of mouth and name dropping in the newspapers will enhance our chances of a full 100 people.

Suggestion: talking to New Zealand people this weekend...cost of full American breakfast at hotel/motel is about \$3.50. We should not offer too much money to the Marae as it might insult them or make us appear rich americans... Food for 2 meals would not cost more than 6-7 U.S. dollars - group cooking and locally prepared.

Donation to Polynesian Voyaging Society could be \$75.00 per person or \$100.00. This includes a t-shirt for each and the cost of mailings.

I will answer all registrations and requests.

## HAWAII 2000

EDUCATIONAL & CULTURAL PROGRAM:

### General Information & Tour Con

*This must be  
sent with each  
registration.*

#### OUR PRICES

All tour prices quoted for land arrangements are based on rates (including foreign exchange rates) known August 1984 and expected to be in effect at the time of departure. They are subject to increase without notice if such rates change prior to departure. Land cost prices do not include any air transportation unless so outlined on the respective itinerary page.

#### TRAVEL DOCUMENTS NEEDED

Passport, visas, photographs, inoculations. Complete details will be given when reservation is made.

#### DEPOSIT

A deposit must accompany all requests for tour membership. This deposit forms part of your final payment.

#### AMENDMENT FEES

A handling fee of US \$10 per transaction will be charged for any alteration or amendment made to a booking.

#### CANCELLATIONS

Cancellations at any time after initial deposit - fee of \$25.00. Cancellations received in writing: 61 to 90 days prior to departure - fee of \$125. 31 to 60 days prior to departure - fee 10%. 15 to 30 days prior to departure - fee 50%. Cancellations received in writing 14 days or less the fee is 100%.

#### REFUNDS

All claims for refunds must be made WITHIN SIXTY DAYS after termination of the tour. The claim must be accompanied by a STATEMENT FROM THE TOUR DIRECTOR certifying exactly the services not taken. No refund can be made for unused transportation where party tickets are involved. No refund can be made for services not taken on land arrangements. Refunds are made on the basis of actual cost of services not used and not on a per diem basis.

#### MEMBERSHIP

In our endeavor to ensure congenial membership, Hawaii 2000 reserves the right to refuse the application of anyone and/or expel from any party, tour members whose conduct is incompatible with the interests of the party.

#### BAGGAGE

Free AIRLINE baggage allowance is two bags per person with combined maximum linear dimensions (length plus

width plus depth) of 106". Neither bag may exceed 62". Total baggage allowance is 44 lbs. However, we urge tour members to carry only ONE bag per person with dimensions not to exceed 19" x 20" x 10".

Baggage portage while on tour is included in the tour price.

Hawaii 2000 will furnish each client with a complimentary travel bag, which we recommend to take on the trip and which should be carried by the owner at all times. Should you prefer to take another travel bag, the standard measurement of 17" x 14" x 8" should not be exceeded. NO RESPONSIBILITY IS INCURRED FOR LOSS OF OR DAMAGE TO BAGGAGE OR ANY OF THE PASSENGER'S BELONGINGS. IT IS RECOMMENDED TO CARRY BAGGAGE INSURANCE.

#### NOT INCLUDED

Passports, visas, vaccinations, inoculations, foreign airport taxes, tips to your tour director, beverages and meals not included (these extra items will be billed to you before leaving the hotel or restaurant), optional excursions, other items of a personal nature as well as portage at U.S. airports.

#### INSURANCE

We recommend personal, baggage and cancellation coverage. We will assist you with these policies.

#### MEALS

Meals provided in the tour cost are indicated at the end of each day's sightseeing activities as (B) for American breakfast, (L) for lunch, (D) for dinner and (in-flight) for meals provided on airline flights. Meals not listed are at the tour member's expense.

#### AIR TRANSPORTATION

The air fares quoted in this brochure are based on round trip economy GIT (Group Inclusive Tour) and APEX (Advance Purchase Excursion) fares. They are subject to change without notice.

\$3 U.S. international transportation tax is not included.

For cancellations after ticketing deadline, the airlines will impose a cancellation fee of 25% of the total air fare for all tours.

If for any reason beyond Hawaii 2000's control, schedules or flights are changed, any increase in the air fare will be collected from tour members. Any decrease in air fare will be refunded.

#### IMPORTANT - PLEASE READ: RESPONSIBILITY

Hawaii 2000, Honolulu, Hawaii (hereinafter referred to as "the Company"), is responsible to you in making arrangements for the tour services offered in this brochure, including transportation, sightseeing and hotel accommodations. The carriers, hotels and other suppliers providing tour services are independent contractors and are not agents, employees or servants of or joint venturers with the Company or its affiliates. All certificates and other travel documents for tour services issued by the Company are subject to the terms and conditions specified by the supplier and to the laws of the countries in which the services are supplied. If the services included in the tour cannot be supplied or there are changes in an itinerary for reasons beyond the control of the Company, such as airline schedule changes, weather conditions, strikes etc., the Company will arrange for the provision of comparable services. Any resulting additional expense will be payable by tour participants and any resulting savings will be refunded by the Company to tour participants.

The Company reserves the right to accept or reject any person as a tour participant, to make changes in the itinerary whenever the Company deems it necessary to the comfort, convenience or safety of the tour participants, and to cancel a tour at any time. If the Company cancels a tour, it shall have no responsibility beyond the refund of all monies paid to the Company by the tour participant.

The tour participant agrees that neither the Company nor its affiliates shall be liable for any damage, loss (including personal injury, death and property loss) or expense occasioned by any act or omission of any supplier providing tour services or of any other person. No person, other than an authorized representative of the Company by a document in writing, is authorized to vary, add or waive any term or condition in this brochure, including any term or condition set forth in the preceding provisions.

NEW ZEALAND DATA

COURSE

**Course Reminders**

1) sail west - use islands as course clues  
sail in trades initially in solid trades 21 ? =

2) sail west or south west from clues  
to 28° south - should have gotten  
key -- the correct longitude at 28° S  
hema south thru convergence zones

\* to keep current longitude  
keep miles and adjust to longitude differences

3) If first section - from Raro - Eua  
Lt heavy clouds - head 50th west  
Key is to keep longitude

**Technique:**

- 1) know longitude of targets
- 2) know miles of longitude/degree
- 3) memorize miles travelled west
- 4) know miles west per sail day 120 mi/  
direction

Miles for Course - extreme

- 1) Raro - Eua = 850 mi
  - 2) Eua -  $28^{\circ}$  S = ( $8^{\circ} 45'$ ) 525 mi. (Nalani)  
4 day west current = 10 mpd  
from  $21^{\circ}$  to  $25^{\circ}$  = 10 m/d west  
 $25^{\circ}$  to  $28^{\circ}$  - variable
  - 3)  $28^{\circ}$  to  $35^{\circ}$  = ( $7^{\circ}$ ) = 420 mi (Hema)  
Current variable  
(Total miles 1,795  
(is the @ 210 mi east of Great Barrier Island  
same) @ 53 mi " " East Cape (long)  
370 mi " " 3 Kings
- 

Sail Aina

- (B) Raro to  $28^{\circ}$  S = 1,085  
Based on 100 m/d sail at 12 m/d current
- $28^{\circ}$  to  $35^{\circ}$  S = 7      420  
1,505

Puts the two courses (A) and (B) at the same  
position at  $28^{\circ}$  S 50

(Raro-Tonga-Nalani)

COURSE - COOKS - NEW ZEALAND

- 1) Raro - Eua 84 mpd/10 mi. ??/?? (94 net)  
852 mi.  
9.1 days sailing
- 2) Eua to 25 south (Nalani) 84 mpd/10 mpd/west  
256 mi.  
3.0 days \* just kept 84 mpd to 25 south even  
though it ?? at 24  
current = 30 mi. west
- 3) 25 S to 30 S (Nalani) 72 m/d  
current - 10 m/d north  
6° = 360 M = 50 mi. south  
  
\* Actually recover the current (10 north) will push the canoe  
past 30 south - will get to 30 south -  
60 miles ??  
so if sail from 25 to 35 actually distance  
over the water only 310 miles travel so 4.3 days  
43 mi. S current
- 4) 30 to 32 - Hema 2.5 ??? 60 mpd  
curr. variable  
120 miles - 2 days
- 5) 32 - 36 - Hema 3 knots 72 mpd  
curr - 10 mpd east  
240 mi - 3.3 days = 33 mi. east

-----  
At 36 south 45 mi. from long of East Cape  
190 mi. from long of Great Barrier Reef  
365 mi. from long of 3 Kings  
Total days: 21.5

2) A 20° - 25° (Manu)  
5° = 302 mi. @ 84 m/d = 3.6 days  
@ ??? 10 mpd = 36 miles

3) A 25° - 30° (Manu)  
7° 03' = 423 mi. @ 72 (MPD) = 5.9 days  
@ N. curr. = 10 MPD = 59 mi.

@ Note: with current pushing canoe past 30 south  
Actual from 25° - 30° w/current =  
353 mi. @ 72 mpd = 4.9  
49 mile current

4) A same  
5) A

Difference between two courses Nalani and Manu  
is 115 miles = 23 days total

-----  
At 36° south

- 1) 65 mi west of East Cape
- 2) 80 mi east of great barrier
- 3) 255 mi east of 3 Kings Isl.

RARO - EUA (MANU)

$4^{\circ} 15'$  - 255 mi = @ 72 m/d = curr = 10 mpd south  
actual distance = 213 = 3 days = 30 mi. current

(B)  $25^{\circ}$  -  $28^{\circ}$   
 $28^{\circ}$  -  $30^{\circ}$  - direction Naleo  
current - N @ 10 mpd  
dist = 130 mi. = 72 mpd = 1.8 days = 18 miles  
actual = 115 mi 1.7 days = 17 mi current  
Naleo = 58 mi. east of course from  
 $28^{\circ}$  -  $30^{\circ}$  Manu

-----

Raro - Eua - Manu

$28^{\circ}$  -  $30^{\circ}$  Direction sail - Hema  
current = N @ 10 mpd  
dist. 120 mi. = 1.6 days = 16 miles  
actual speed = 72 m/d + 10 mi/curr = 82 mpa  
120 divided by 82 = 1.5 days = 15 mi/curr =  
actual dist over water = 105 mi.

Raro - Aina

days

- 1) Raro west = 266 mi @ 84 mpd 3.1 days
- 2) west point = aina 945 mi to 29° south 7.1 + 4.8 = 11.9
- 3) 28° S - 36° S = 22.2

- 
- 1) Raro = sail 265 mi west (over water)  
 @ 84 mpd = 10 mpd curr = 35 mi = total dist 298 over ground  
 84 mpd + 10 m/curr = 94 mi/day = 3.2 = 32 mi curr = 266 over water
  - 2) 297 mi west to 25° S  
 sail Aina for 600 mi  
 at 84 mpd = 10 mpd curr. west = 71 miles
  - 3) 25° S to 28° S ) no matter what the  
 sail Aina for 344 mi (over water if speed ) current does just  
 is same as theory ) sail the 344 miles  
 @ 72 mpd = curr 10 mpd south ) of long (Aina) - key  
 = 4.8 days sailing = 48 mi. curr south ) is not to sail too  
 ) far west
  - 4) At 28° South same point as Eua - Manu to 28° south  
 23° S to 36° S - same as other  
 Either - ??? on there from 28° South

-----  
 At 30° S from long of Raro to Point of Crossing at 28° S  
 = 1,187 mi.  
 At point of crossing 28° S to long of 3 Kings = 314 mi = 340 mi  
1187 1501 ÷ 314 = 4.8 4.8 x 314 = 1501  
 314 total miles = 1,501 mi. at 28° S

1,501 ÷ 314 = 4.8 = So 314 is about 1/5 total distance is the margin of error

1,501 - 314 = 1,187 (Raro to 28° crossing)

Raro - 30° S straight Aina  
 21° - 25° = 600 mi. 600  
 25° - 30° = 575 mi 25° - 28° = 345 25° - 29° = 468  
 Totals 1,175 945 1,068

Distance from longitude of:  
 long. East Cape 28° Point  
 At 28° 4° 37'/245 mi. 5° 16'/279 mi.  
 29° 2° 33'/134 mi. 3° 12'/168 mi.  
 30° 32' / 28 mi. 1° 11'/ 61 mi.
